PRESS RELEASE

FLiMCo

Financial Literacy in Marginalised Communities

Erasmus+ KA2

2018-1-UK01-KA204-048120

The activities related to the development of the project continue with excellent results.

After the meeting held in Austria last September, the partnership continued the development of the third Intellectual Output: the online course on financial literacy for marginalized communities, refugees and NEETs.

Each project partner has already conducted, in its own country, a preliminary research on existing platforms designed with purposes similar to those of the FLIMCO project. The goal is to create a free, intuitive and user-friendly platform.

FLIMCO's e-course on financial literacy will provide VET organizations and trainers with a useful training tool to and the project target groups (marginalised communities, refugees, NEETs and) with the opportunity to increase their own financial literacy through an interesting, interactive and up to date e-course. It will focus on the real financial literacy needs of the above mentioned groups.

The e-course will be available for free on the project website.

The next transnational project meeting of the FLIMCO project will take place in Poland.

More details will soon be available on the project website <http://flimco.erasmus.site>

FLIMCO project is funded under Key Action 2 – Strategic Partnership of the Erasmus+ Programme.

The Key Action 2 offers to different kinds of organizations the opportunity to work in partnership to exchange good practices.
