## PILOTING OF THE E-COURSE AND FRAMEWORK FOR FINANCIAL LITERACY IS CURRENTLY TAKING PLACE

The activities of FLiMCo projects are ongoing and the partners are keeping working on its outputs in order to achieved expected objectives and results.

The piloting-phase of the e-course and framework for FLIMCO financial literacy is now ongoing.

It is focused on piloting the project outputs with the key stakeholders and target groups.

Participants to the piloting are selected by project partners' networks, locally, regionally and nationally. They are: teachers, trainers and educators of civil society/NGOs and Local authorities (n. 3 for each partner) and people living in marginalized communities, disadvantaged learners, NEETs, migrants (n. 20 for each partner).

Their feedback will help us to: learn if the current functionalities enable users to achieve the desired project impacts and measure to what extent the pilot audience is satisfied with the current framework and e-course, its functionalities and ease of use.

The Financial Literacy in Marginalised Communities (FLIMCO) project successfully gained Erasmus+ funding in 2018. It aims to increase the financial literacy of marginalised, refugee and NEET youth communities who are at an increased disadvantage in day-to-day life due to their comparatively low level of financial literacy.

## VISIT PROJECT WEBSITE

You can visit the FLIMCO website  
to test any of the project outputs here:
