6th PRESS RELEASE

FLiMCo

Financial Literacy in Marginalised Communities

Erasmus+ KA2

2018-1-UK01-KA204-048120

The activities of FLiMCo projects are ongoing and piloting of the e-course and framework for financial literacy is currently taking place

This-phase is focused on piloting the project outputs with the key stakeholders and target groups. Participants to the piloting are selected by project partners' networks, locally, regionally and nationally. They are: teachers, trainers and educators of civil society/NGOs and Local authorities (n. 3 for each partner) and people living in marginalized communities, disadvantaged learners, NEETs, migrants (n. 20 for each partner).

The collected feedback will help us judge if the users are satisfied with the form and quality of the prepared materials and measure the indicators necessary for the project.

The Financial Literacy in Marginalised Communities (FLiMCo) project successfully gained Erasmus+ funding in 2018. It aims to increase the financial literacy of marginalised, refugee and NEET youth communities who are at an increased disadvantage in day-to-day life due to their comparatively low level of financial literacy.

More details will soon be available on the project website <http://flimco.erasmus.site>
